DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see Remarks/Arguments, filed 8/16/05, with respect to the objections of claims 6, 8, 10-12 and 15 have been fully considered and are persuasive. The objections of the above listed claims have been withdrawn.
2. The examiner acknowledges that claims 1-5, 7, 9, 13, 14 and 16 have been canceled and therefore the rejections of said claims are also withdrawn.

Allowable Subject Matter

3. Claims 6, 8, 10-12 and 15 are allowed.
4. The following is an examiner's statement of reasons for allowance: The prior art made of record does not disclose the use of a hydrogen storage media being secured within a porous anode substrate layer, nor does it disclose the use of a hydrogen transfer electrochemical pump as a hydrogen transfer means between the anode and cathode flow paths. The prior art made of record also does not disclose the use of a cathode bypass valve in conjunction with a cathode bypass blower both being a part of a cathode bypass line. The prior art made of record further does not disclose the use of anode and cathode exhaust valves that are located below the fuel cell system with respect to the direction of gravity, nor does it disclose that the valves can be vacuum release valves. The prior art made of record does not disclose that the hydrogen sensor means comprises of a sensor circuit, a power source, a voltage measuring device and a sensor circuit switch that is then secured to the fuel cell.

Art Unit: 1746

5. The examiner acknowledges that applicants have submitted a statement of common ownership stating that U.S. Patent No. 6,635,370 to Condit et al. and U.S. Patent No. 6,838,199 to Balliet et al. were commonly owned by U.T.C. Fuel Cells, LLC of South Windsor, CT at the time the inventions disclosed in the application and references were made. Therefore the above listed references cannot be used as Prior Art to make any rejections of the claims under 35 U.S.C. 103(a).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert Hodge whose telephone number is (571) 272-2097. The examiner can normally be reached on 8:00am - 4:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Barr can be reached on (571) 272-1414. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
